Dear Mr. Albert,

I am very glad to hear that you are attempting to repeal the gun control law which the Congress passed last year. I think the laws concerning firearms should be directed toward the criminal, not the sportsman. Make it a serious offense with mandatory jail sentence for persons committing crimes with firearms.

The people of this area were particularly upset with the law concerning interstate trade of firearms since we do most of our business in Texas cities. The IRS application of the law to ammunition was also disliked. Wishing you success in this endeavor. Sincerely,
Boyd Warren

Dear Mr. Warren:

Thank you for your letter concerning the firearms control legislation passed in the 90th Congress. Total repeal may be difficult but the bill which Congressmen Edmondson and Steed and I introduced on March 12, H. R. 8822, was proposed for this purpose. I hope we will be successful in rolling back some of these onerous restrictions upon sportsmen and law-abiding citizens.

Sincerely,

CARL ALBERT, M. C.
